Roofings Group Profile

Roofings Group has been actively manufacturing steel products in Uganda for over two decades now. The founder and current Chairman, Dr. Sikander Lalani ventured into the steel industry, 1974 in Rwanda. With an experience of over 40 years, Dr. Lalani together with his team of professionals have worked passionately to ensure that the group of companies uphold the very best standards in their business processes which has without a doubt reflected on the world class quality products which the company offers to the market. Roofings Group has invested over $280 million in Uganda and has 3 separate entities operating under it; Roofings Limited, Roofings Rolling Mills and Roofings Polypipes. Roofings Group is fully ISO certified in: Quality management systems (ISO 9001), Occupational Health and Safety Management System (OHSAS 18001) and Environmental Management System (ISO 14001). We stand out from our competition by the consistent quality of our products, ethical practices and environmental friendly approach. All our products are fully certified as per Uganda National Bureau of Standards (UNBS) and can be produced to your specifications. With Roofings Group, the consumer can be rest assured that their products are of high quality and their structure will stand the test of time.

Launched in 1994, Roofings Limited was the anchor that helped established the other 2 subsidiaries that make up Roofings Group.

Roofings Rolling Mills is one of the largest and most modern steel complexes operating in East and Central Africa.

Designed for the production of PVC and HDPE pipes and PVC fittings used in plumbing, drainage and electrical installations.
